

## Form Standards - Production Worksheet (Continued)

Element/Item Number	Standard
60b. Factor (continued)	<p>For test weights not shown on the chart, multiply the actual test weight by the last available combination test weight and pack factor for the appropriate bin size and divide the result by the last available test weight shown on the chart.</p> <p>Example For Test Weight Not Shown On The Chart:</p> <p>Soybeans with a test weight of 66.0 pounds stored in a less than 255 Sq. Ft. bin <math>66.0</math> (actual test weight) <math>\times</math> <math>1.087</math> (last available factor) <math>\div</math> <math>65.0</math> (last available test weight) = <math>1.104</math></p>
61. Adjusted Production	Result of multiplying columns 55 or 56 times 58b times 59b times 60b. Round to nearest tenth.
62. Prod. Not to Count	<p>Net production not to count, in bushels to tenths, when acceptable records identifying such production are available, from harvested acreage which has been assessed an appraisal of not less than the guarantee per acre, or from other sources (e.g., other units or uninsured acreage) in the same storage structure (if the storage entries include such production).</p> <p>This entry must never exceed production shown on the same line. Explain the total bin contents (bin grain depth, etc.) and any "production not to count" in the Narrative.</p> <p>Make no entry if only the depth for <b>PTC</b> has been entered in column "51," and the depth for production not to count has been entered in the Narrative section. Refer to example in the LAM.</p>
63. Production Pre-QA	Result of subtracting column 62 from column 61, <b>to tenths</b> .
64a. Value	<p>When applicable, enter the RIV. RIV must be limited to amounts that are usual, customary, and reasonable. (Refer to the SP and the LAM for further instructions.)</p> <p>Make no entry when the <b>DF</b> is obtained from the charts in the SP.</p>
64b. MKT Price	<p>If an entry is in column 64a, enter the Local Market Price for U.S. Grade No. 1 of the crop (refer to the CP). Refer to the LAM for further instructions.</p> <p>Make no entry when the <b>DF</b> is obtained from the charts in the SP.</p>

## Form Standards - Production Worksheet (Continued)

Element/Item Number	Standard
65. Quality Factor	For production eligible for QA, enter the 3-digit QAF determined by subtracting the result of column 64a divided by column 64b from 1.000, or 1.000 minus the DF(s) obtained from the SP.
66. Production to Count	Enter result from multiplying column 63 times column 65, in bushels rounded to tenths.
67. Total of Column 63	Total of column 63, to tenths. If no entry in column 63, make no entry.
For items 68 – 72. When separate line entries are made for varying share, stages, APH yields, price elections, types, etc., within the unit, and totals need to be kept separate for calculating indemnities, make no entry and follow the AIP's instructions; otherwise, make the following entries.	
68. Section II Total:	<b>Preliminary and Replant:</b> Make no entry.  <b>Final:</b> Total of column 66, to tenths.
69. Section I Total	<b>Preliminary and Replant:</b> Make no entry.  <b>Final:</b> Enter figure from Section I, column 38 total.
70. Unit Total	<b>Preliminary and Replant:</b> Make no entry.  <b>Final:</b> Total of column 68 and column 69, to tenths.
71. Allocated Prod	Refer to the LAM for instructions for determining allocated production. Enter the total production, rounded to tenths, allocated to this unit that is included in Sections I or II of the PW. Document how allocated production was determined and record supporting calculations in the Narrative or on a Special Report.
72. Total APH Prod.	Result to tenths, of subtracting the total of column 37 (item 42 "Totals") and item 71 (Allocated Prod.) from item 70 (Unit Total). If no entries in item 37 and item 71, transfer the entry in item 70. Make no entry when separate APH yields are maintained by type, practice, etc., within the unit.
<b>The following required entries are not illustrated on the PW example below.</b>	
73. Insured's Signature and Date	Insured's (or insured's authorized representative's) signature and date. Before obtaining the signature, review all entries on the PW with the insured (or insured's authorized representative), particularly explaining codes, etc., that may not be readily understood.  Final indemnity inspections and final replanting payment inspections should be signed on bottom line.
74. Adjuster's Signature, Code #, and Date	Signature of adjuster, code number, and date signed after the insured (or insured's authorized representative) has signed. For an absentee insured, enter adjuster's code number only. The signature and date will be entered after the absentee has signed and returned the PW.  Final indemnity inspections and final replanting payment inspections should be signed on bottom line.
